SUMMARY

Frontend Developer with hands-on experience building responsive and user-friendly web interfaces using **HTML, CSS, JavaScript, React.js, Tailwind CSS**, and basic **Next.js**. I focus on clean UI design, reusable component architecture, and cross-device responsiveness. A quick learner who continuously strengthens frontend skills through practical, project-based work.

SKILLS & EXPERTISE

Technical: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Responsive Web Design, Next.js (Basic), Git, GitHub, C++, Java, Python, MySQL, Figma, Canva, VS Code

Methodologies: Component-based Development, Responsive UI Design, Reusable UI Development, Web Performance Optimization, Cross-browser Compatibility, Problem Solving, Basic Debugging, Continuous Learning

PROJECTS

Foodex Redesign — *React.js, JavaScript (ES6+), Tailwind CSS, React Router DOM, Framer Motion*

Jun 2026 – Present

- Developed a modern, responsive FMCG company website during a frontend internship using reusable React components and scalable frontend architecture.
- Built dynamic product listing and detail pages with React Router, centralized product data, category filtering, search, sorting, Quick View modal, responsive layouts, and interactive image galleries.
- Enhanced UI/UX using Framer Motion animations, reusable component design, mobile-first responsive development, and consistent visual design while maintaining accessibility and performance.

Internship Tracker — *React.js, JavaScript, HTML, CSS, Tailwind CSS*

Mar 2026

- Built a responsive internship tracking web app to help students manage applications, deadlines, and job-related information, improving workflow and usability.
- Designed and developed clean UI components for adding, editing, filtering, and organizing internship records, following component-based development practices.
- Focused on responsive design and structured information display to address a practical student career management problem end-to-end.

Aperture Studio — *React.js, Tailwind CSS, Framer Motion, JavaScript*

Dec 2025 – Present

- Built a responsive photography-inspired landing page featuring modern UI components, smooth page transitions, and interactive animations using React, Tailwind CSS, and Framer Motion.
- Designed reusable component-based layouts with cinematic loading screens, animated content sections, auto-scrolling image cards, and responsive dark/light theme support to improve user experience.
- Focused on responsive frontend development, accessibility, premium motion design, and polished UI interactions while maintaining clean and reusable component architecture.

EDUCATION

Jaypee Institute of Information Technology

Noida, Uttar Pradesh, India

Bachelor of Computer Applications (BCA) — CGPA: 8.85/10

2024 – 2027

- **Coursework:** Object-Oriented Programming, Database Management Systems, Discrete Mathematics, Data Structures and Algorithms, Web Technology, Multimedia Technology, Python, Introduction to Digital Technologies.

ACHIEVEMENTS & CERTIFICATIONS

- Selected as **Class Representative (CR)**, demonstrating leadership, responsibility, and communication skills while coordinating between students and faculty.
- Maintained a strong academic record with a **CGPA of 8.89/10** in the first academic year, reflecting consistency in semester performance.
- Solved **100+ DSA problems** on LeetCode, improving problem-solving ability and coding proficiency through regular practice.
- **VishwaNova National Level Weboreel AI Hackathon** – Participated in the national-level AI hackathon organized by MIT World Peace University, Pune. [View Certificate](#)
